Dictation C C C C C A

Circle and write down with 10s. For each number, you can use the abacus.

$$36 = 10 + 10 + 10 + 6$$

Count in 3 and write down the numbers starting from 4.

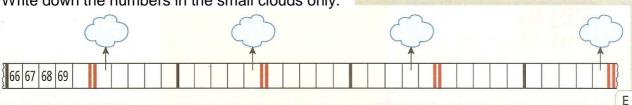

Write down the numbers in the small clouds only.

A. Dictation of numbers up to 100. The activity starts with the 'Game of the number plate' to discover the numbers from 90 to 99. The English word 'ninety' doesn't pose any problem contrary to French where 90 becomes *four-tweny-ten. We can nevertheless point out that 90 = 20 + 20 + 20 + 20 + 10 or 80 + 10 as it will be presented in this way in French: 91 = 90 + 1 or 80 + 11, 92 = 90 + 2 or 80 + 12.

B and C. Numbers from 69 to 100, using an abacus. We can also use the abacus cardboard plate at the end of the book.
