ARITHMETIC

Counting and producing amounts

(alphabetical order)

Pickmarble's boxes	≤ 5	14
	≤ 10	32
	> 10	76,86-87,140-141
Abacus		89, 110
Number constellations up to 5		6, 84
"Flash cards"		13, 82
Numbers (as shown on a dice) ≤ 5		8
Numbers (as shown on a dice) ≤ 10		40
Numbers (as shown on a dice) > 10		64, 67
Numbers (shown with the fingers) ≤ 5		8
Numbers (shown with the fingers) ≤ 10		17,19,20,22
Writing numbers in full	54,65-66,95,97,99,101,109,117,123	
Number line	12, 13, 33, 36, 79, 86-87	
Coins and notes	34,74,93,104,119	
Towards decimal notation	67, 74 to 85	
Decimal notation	86-87 and following pages	
Chart of numbers according to Pickmarble and Dédé	140-141	

Comparing, ordering, marking and coding of cases

Ordering numbers	48
Comparing numbers (> and <)	61
Marking and coding cases in a Cartesian table	92

Arithmetic symbols and the different writing styles of numbers

(chronological order)

The symbols + and =	22, 24
Writing an equation	23, 44-45, 60
The number 'zero'	24
Addition: partition into multiples of tens and ones	25,27,50,61,63,70,72,89,94
The symbol – (minus)	46-47
Distinguishing + from –	49
The symbols > and <	61
Numeral notation	86-87 and following pages

Performing additions and subtractions

Towards calculation of sums in a line	104
Calculating sums in a line (1)	112-113
Calculating sums in a line (2)	118
Performing additions (usual disposition)	126-127

ASSESSMENT TESTS

21,30-31,57,73, 103, 133

Strategies in calculations

(chronological order)

Sums ≤ 5	22
Sums ≤ 10 : Beyond the landmark 5 (4+3 for example)	37
Other sums ≤ 10 (6+3 for example)	38
Commutative nature of the addition	39
'Small' doubles (up to 5+5)	45
Subtraction (1): deduct a little number	46-47
Subtraction (2): deduct a bigger number	58-59
Completing up to 10	63
Back to the landmark 5 (7+5 for example)	78
'Bigger' doubles (up to 10+10)	88
Beyond the next set of ten	96, 98
Organizing and working on additions	102
Sums such as 21+7; 24+6; 23+9	108
Sums of 2-digit numbers	104, 112-113, 116 to 132

Solving problems

Problem situations with auto-correction:	
- Using a masking card	16, 26, 56, 70, 72, 111, 115
- Orders	20, 27, 62, 71
- Using the lid of 'Pickmarble's boxes'	14-15, 33, 76
Problems involving money (coins and notes)	34...,48, 74, 93, 104..., 119, 132
Situations involving unequal distribution	46, 58
Various numerical problems	6-7, 23, 44, 45, 51, 54, 60, 81, 83, 100, 109, 115-116, 123-124, 132
Solving Problems Workshop (SPW)	134 to 138

GEOMETRY

(chronological order)

Drawing a line with a ruler	10-11,18-19,28-29,31,42-43
Re-creating simple shapes on a grid	52-53, 55, 67
Marking and coding cases and nodes on a grid	68-69, 71
Finding left and right (on oneself and on others)	80
Representing three-dimensional space on a plan	82-83
Prints of three-dimensional shapes	91
Cartesian tables	92
Drawing basic shapes using a stencil	120-121, 124-125, 130-131

TOWARDS MEASUREMENTS

(chronological order)

Comparing lengths	106
Measuring lengths (using a standard length: a match)	107
Measuring lengths (using the cm unit)	114 and following
Durations (understanding the date system)	122
Comparing and weighing masses using the 'kg'	128-129,130
